

Eff. Date: 1 June 2023

Version: 2.1 IFU: CD4 ILM9200

# CD4 clone CD4/3619R

Recombinant Rabbit Monoclonal Antibody

#### Instructions for Use

#### Specification:

Recognizes a protein of 55kDa, identified as CD4. It is a membrane glycoprotein of T lymphocytes that interacts with major histocompatibility complex class II antigens and is also a receptor for the human immunodeficiency virus. This protein is expressed not only in T lymphocytes, but also in B cells, macrophages, and granulocytes. The protein functions to initiate or augment the early phase of T-cell activation, and may function as an important mediator of indirect neuronal damage in infectious and immune-mediated diseases of the central nervous system. The majority of peripheral T-cell lymphomas are derived from the T-helper/regulatory cell subset so that most mature T-cell neoplasms are CD4+/CD8-. Anti-CD4 is used in the immunohistochemical staining of lymphoproliferative disorders to evaluate tumors with CD4 aberrant expression.

### **Availability:**

Catalog No. Contents Volume

 ILM9200-C01
 CD4
 0,1 ml concentrate

 ILM9200-C05
 CD4
 0,5 ml concentrate

 ILM9200-C1
 CD4
 1,0 ml concentrate

Intended use: For Research Use Only

Reactivity: Human

Clone: CD4/3619R

**Human Gene ID:** 920

Human SwissProt: PO1730

Human Unigene: 631659

Species of origin: Rabbit

Isotype: IgG

Control Tissue: Tonsil

Staining: Membranous

Immunogen: Recombinant fragment (around aa 216-396) of human CD4 protein (exact sequence is proprietary)

**Presentation:** Tissue culture supernatant containing 15mM sodium Azide as a preservative

## Application and suggested dilutions:

Pre-treatment: Heat induced epitope retrieval in Tris EDTA buffer pH9.0 for 15 minutes is required for IHC staining on formalin-fixed, paraffin embedded tissue sections.

 Immunohistochemical staining of formalin-fixed, paraffin embedded tissue section (dilution up to 1:50-1:100)

The optimal dilution for a specific application should be determined by the investigator.  $\label{eq:continuous}$ 

Storage & Stability: Store at 2-8  $^{\circ}$ C. Do not use after expiration date printed on the vial.
